

10 September 2021

Dear Member

**WE ARE HERE TO SUPPORT YOU TO MAKE YOUR DECISION**

You may be feeling unsure about the COVID-19 vaccine or holding out to 'just wait and see'. We have created a [dedicated information hub](#) to support you with the latest information on vaccines so you can feel confident in your decision to get vaccinated. Our videos, infographics and articles aim to answer any questions you may have about the efficacy and safety of vaccines.

**GATHER THE FACTS FROM THE EXPERTS**

In the [Understanding Vaccines](#) video series, Dr Noluthando Nematswerani explains how the entire population benefits from a high vaccination rate, especially the most vulnerable and those who are most at risk for severe illness.

**Be inspired** with stories from fellow South Africans on what prompted them to get vaccinated against COVID-19. For some, it was to look forward to getting back to gatherings, concerts, sports games and more, while for others, it was to protect themselves and their loved ones who are more vulnerable.

**GET READY FOR YOUR VACCINATION**

All you need to do to get your vaccination is:

1. **Register** on the national [Electronic Vaccination Data System](#) (EVDS)
2. **Register and book your vaccination** at a Discovery vaccination site near you using our [COVID-19 Vaccination Navigator](#)
3. Visit our [website](#) to see which of our Discovery Vaccination sites allow walk-ins.

Our vaccination sites have priority queues for those aged 50 years and above. Our COVID-19 Vaccination Navigator will support you with all the information you need at every step of your vaccination journey.

## DISCOVERY VACCINATION SITES

- All COVID-19 preventive measures are in place at [Discovery-managed vaccination sites](#). For added protection, we request that you please double mask and adhere strictly to social distancing protocols.
- If you have recently been diagnosed with COVID-19, it is safe for you to vaccinate 30 days after your recovery from the infection. If you have been exposed to COVID-19 please complete your 10 days of quarantine.

## FIND OUT MORE

Visit our [COVID-19 hub](#) for everything you need to know about vaccines.

Our WhatsApp service is always available to answer your questions anywhere, anytime. Say [“Hi”](#) to start chatting with us.

With [WhatsApp](#), you'll get quick and easy-to-understand information about how to register for your vaccine, the vaccination sites around the country, and answers to any questions you may have about getting vaccinated.

Join the millions of South Africans who can say #IGotMyVaccine

Regards
