

MEDI BRIEF

FEBRUARY 2020

Save the date for our AGM

Please save the date for our fifty-first Annual General Meeting on Wednesday 20 May 2020. Meet your new Board of Trustees and hear about the 2019 results at the usual venue, 18th floor, 55 Marshall Street, Johannesburg. You will receive your official notice with your March statements.

Nominations for the Disputes Committee are now open

In the case of a dispute between a member and the Scheme, the Disputes Committee would meet to resolve the issue. Members of the Scheme elect their Disputes Committee every year at the AGM. Should you be interested in serving on this Committee, or know of another suitable candidate, please email the Principal Officer at Fiona.Robertson@angloamerican.com.

Viruses and vaccines

While we are preparing this edition of MediBrief, news about the Coronavirus is making global headlines. By the time this edition reaches you, the information available today would already be outdated. If there is anything urgent that you need to know, we will use email and SMS to communicate with you. To stay informed, follow the news from reputable sources and don't fall for fake news or unnecessary panic. To put it into perspective – the influenza virus (flu) is still a much bigger threat, with as many as 5 million severe flu cases reported worldwide and hundreds of thousands of deaths annually. For both viruses, prevention is key. The same principals apply – stay away from people that sneeze or cough, wash your hands regularly, especially after

touching communal surfaces, stay at home if you are sick, etc. While scientists work on a Coronavirus vaccine, there is a vaccine that works to protect you against the influenza virus. The new flu vaccines will be available shortly. Make use of them, especially if you belong to risk groups, such as patients with certain chronic conditions, immunosuppressive conditions, or if you are elderly. Speak to your GP if you want to find out more. AMS pays for the flu vaccine and the consultation with your healthcare provider needed to get the vaccine. Get your flu shot early and while they are available as more South Africans might make use of the vaccine with all the Coronavirus discussion in the news.

Do you know your new Trustees?

At the end of last year, we informed you about our newly elected Board of Trustees on our website and in MediBrief. Some Trustees have already served in the preceding term and were introduced in previous MediBrief editions. In this issue, we would like to tell you more about the Trustees that haven't yet been featured in MediBrief.
